GERMAN TECHNOLOGY COMPANY

Intelligent security. Connected operations.

Scharfe-Sicht GmbH / Essen, Germany

We combine AI-enabled devices, 365 software and systems integration to connect security events with operational decisions. Our portfolio brings video, workforce attendance, vehicle access and customer insights into coordinated workflows.

SharPcam

AI cameras and NVRs for scene analytics and video evidence.

Eye365

Video management, intelligent search and incident review.

Time365

Attendance capture, shift rules, approvals and workforce reports.

Merge365

Device and application connectivity, with edge deployment options.

LPR365

Plate-based access decisions, vehicle events and parking integration.

FLM365

Visitor flow, repeat visits and customer journey intelligence.

Devices + software + integration

Cloud · On-premise · Hybrid | Architecture selected to fit the project
